Quiz 1 Announcements

- Do not start until we say
- Remember to turn off all devices that beep
Quiz (10 mins)
15 needs for exchange:

1. Individual needs privacy in making a transaction for seemingly taboo things.
2. College student needs an easy way to pay his friend for food since he forgot cash.
3. Students need shipping calculators built in to the product search so they can determine whether buying in person is cheaper than online.
4. People in a hurry need to see product highlights when hovering over an item on a digital marketplace so that they don’t spend too much time shopping.
5. Students need convenience in making purchases by using their cell phones to pay at real locations.
6. People need to know when local discounts are occurring, and where so that they can act on these deals.
7. People need to be able to transact in safe areas.
8. For peer to peer sites, all buyers need to know if their peer has any reviews so they can assess trustworthiness.
9. People need to remember previous items they’ve bought so that they don’t repurchase the same things again.
10. People who are moving into a new house need recommendations and lists of common items bought upon entry to a new house.
11. College students need automated grocery-list buying services so that they can save time on groceries.
12. Busy students want to save time on sending gifts to people by planning out what to buy for people in advance and having it ship out on someone’s birthday.
13. If people know what they want and when they want it, they need an algorithm/way to figure out the cheapest and most trusted retailer for the product they want.
14. A busy student needs a company to take their resume and cover letter in a simple application form, rather than a complicated one, as a simple form implies that the company understands students plights, since students want to minimize time spent on applications so they can focus on school.
15. People need to have a way to collect digitized receipts, split by type of item bought, so
Prototyping grounds communication

Mouse prototype ideas IDEO produced for Microsoft
• Prototypes are questions
• Ask lots of them
A2
Experience Prototype
Activity
Need finding through Facebook

· Scenario: We want to understand how people get to campus.

· Brainstorm about the type of information you’re after. Who comes to campus? What modalities do they be use?

· Individually, come up with a status you might your facebook circle that gets you the answers to these questions (2 mins)
Collecting Needfinding Data on facebook

• Share your status idea with your partner. What questions did you ask? How did they differ? (5 min)

• Examples from class:
  • Where do you need to go on campus?
  • Where do you live?
  • What do you hate about driving to campus?
  • Fake an experience and see if people comment about similar events happening to them

• BONUS: If you’re curious, choose a time you think will get the best responses to post your status and see what
