The Picturephone, 1964

A logical extension of today's telephone service.

Bell System introduces PICTUREPHONE service

Both ends of telephone conversations are conducted, people please by appointment from family-type models in selected areas.

West Park Hotel, Grand Rapids, Michigan; University Building, Washington; National Geographic Society, Washington; and others.

Bell System PICTUREPHONE service lets callers see as well as talk to the recipient. And "Touch-Tone" is the key.

The first time, people can make a local telephone call to another city—the best example of the service, in service and development. This is the service featuring the innovations we provide.

This new service is being offered in the

area listed at the left. Bell System installations of such local picture phone service are available in various areas of the country.

Further development of PICTUREPHONE service is still in the future. But the service is making big headway in the goal of providing you with better service, more easily accessible communication by telephone.

Bell System Working with you

Western Telephone & Telegraph Co. and Associated Companies

Document Collaboration: Track Changes

Participants with low-bandwidth connections generally assumed the spectator role and often used the text chat feature in the Google Hangout to “speak” in the discussion. Speakers (usually the moderator) would notice the text, and speak it aloud to the other participants. Both speakers and spectators used text-chat to demonstrate active listening without interrupting the speaker via audio (for example, a student wrote, “Working in [company] must be really cool. Thanks for sharing :)”).

A shared video channel forces a single conversation. Still, students sometimes used text-chat as a way for non-discussion related talk, such as exchanging contact information or LinkedIn profiles.

STUDY 1: DO DISCUSSIONS HELP PERFORMANCE?

It is not obvious that the **benefits of peer discussions [6, 46]** would transfer to an online environment. **In these environments**, peers have vastly different backgrounds and no prior interaction with each other. Therefore, our first study measures the benefits of participation in online discussions. Later experiments measure how these benefits vary with **geographic diversity in discussion groups**.

Context makes social computing hard

Challenge: Disparity of Work and Benefit

Challenge: **Disparity of Work and Benefit**

Who does work and who benefits?

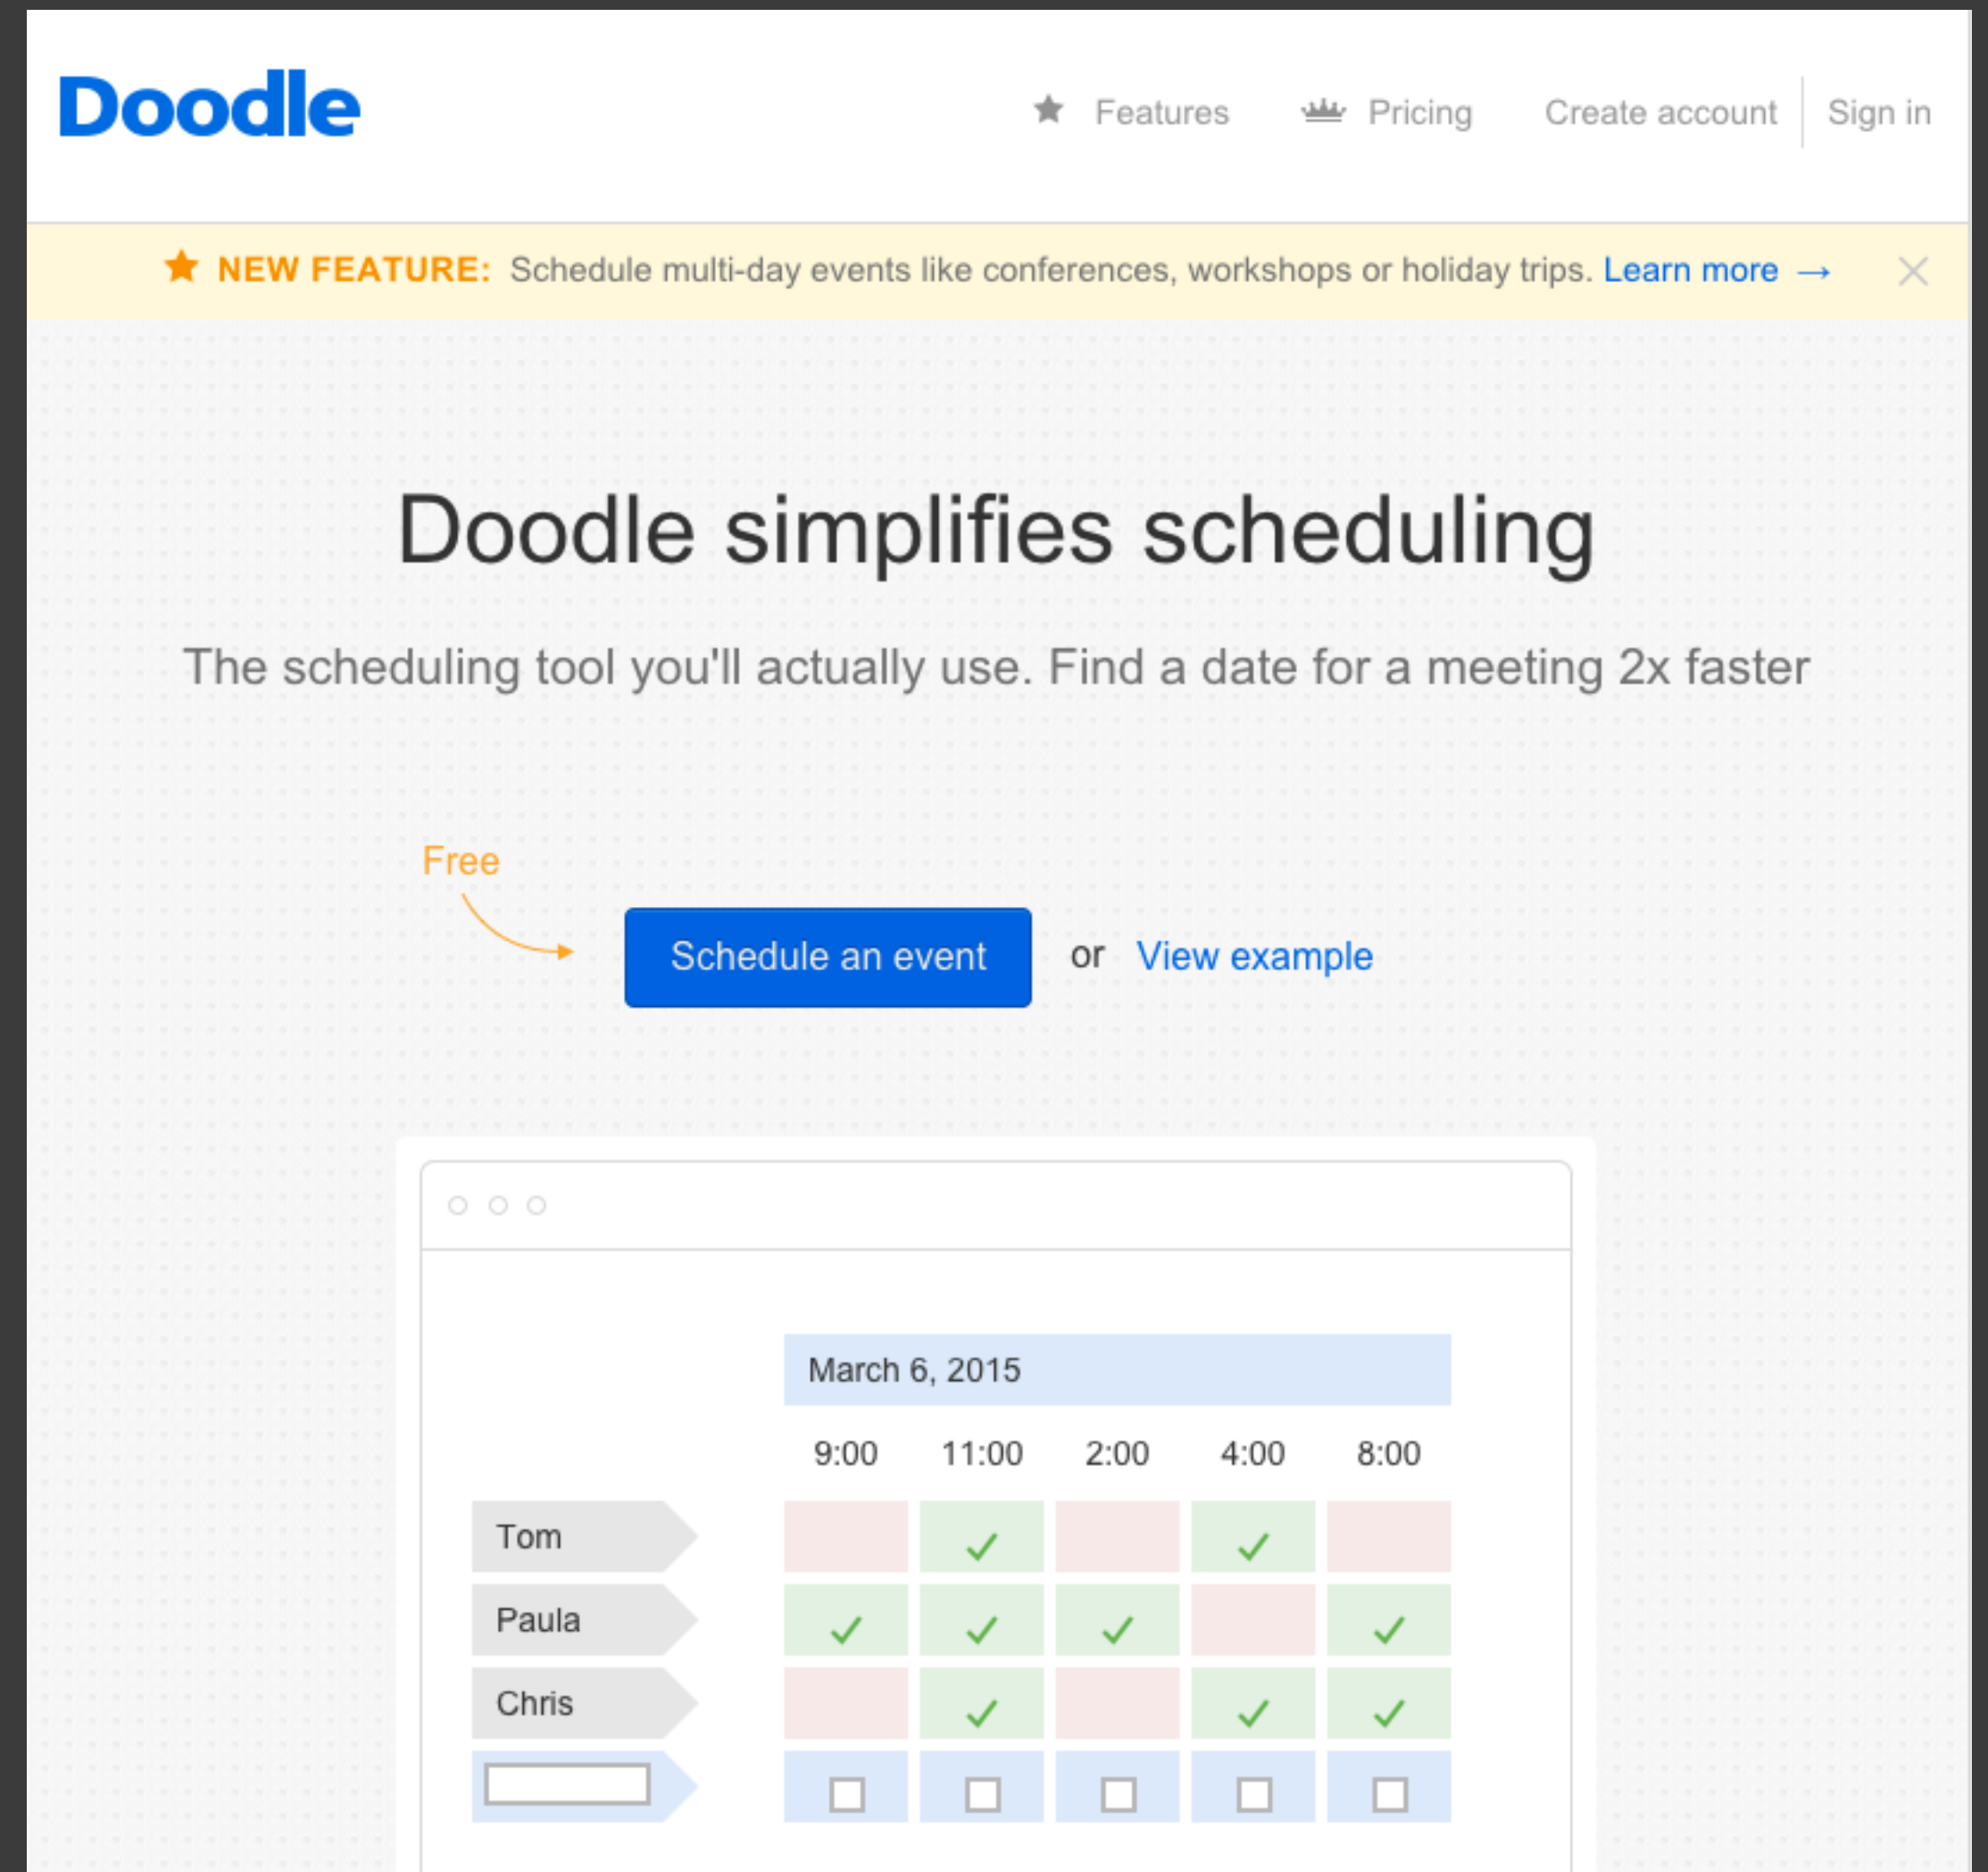

Groupware applications often require additional work from individuals who do not perceive a direct benefit from the use of the application

Example: **How Workers Use Calendars**

- Information is in your head not in the system
- Unscheduled time is when work gets done
- Different infrastructure
- Available depends on who's asking

Addressing the Challenges

- Information is in your head not in the system
- Unscheduled time is when work gets done
- Different infrastructure
- Available depends on who's asking

The screenshot shows the Doodle website homepage. At the top left is the Doodle logo. To the right are links for Features, Pricing, Create account, and Sign in. A yellow banner below the navigation bar announces a new feature: "NEW FEATURE: Schedule multi-day events like conferences, workshops or holiday trips. Learn more →". The main heading is "Doodle simplifies scheduling", followed by the subtext "The scheduling tool you'll actually use. Find a date for a meeting 2x faster". Below this is a blue button labeled "Schedule an event" with a "Free" tag and an arrow pointing to it, and a link "or View example". At the bottom, a preview of the scheduling interface is shown, featuring a calendar for "March 6, 2015" with time slots at 9:00, 11:00, 2:00, 4:00, and 8:00. The interface shows availability for Tom, Paula, and Chris, with green checkmarks indicating availability and red boxes indicating unavailability.

	March 6, 2015				
	9:00	11:00	2:00	4:00	8:00

2:00 PM - 3:00 PM December 11, 2009
Location: Scott's office @ Stanford

Scott,

Fabulous. Thanks very much. We would like to meet you next Friday at 2:00. Right now things look good for us to come to the students' final presentations too. My colleague David and I look forward to seeing you next week.

Thanks!
Ame

How to build social computing that a world of extemporizers actually adopts

- Less structure beats more
- Twitter didn't start with hashtags
- Flexible lightweight tools are often more used than highly proscribed ones
- Paper is one of the most flexible tools we have

Final Week!

- A10 due Thursday, March 16 11:59pm
 - You will be demoing your app on a phone in studio this week
- Final Presentations are Friday, March 17 3:30-7pm
 - Presentations start 4pm SHARP so arrive early to set up
- Poster should be vertical
- If you have a conflict, inform your TA and fill out the form posted on Piazza
- Time to show what you've done in 10 weeks!

Announcements

- Classes to take next
 - COGS 121
 - COGS 160: Social Computing/IxD Startup
- What types of jobs?
 - 5 Dos and Don'ts of your Design Portfolio: designerfund.com/bridge/5-dos-and-donts-for-your-design-portfolio/
 - UX designer, product management, user research
- Where to meet people?
 - Design.UCSD
 - Design @ Large talks
